- Open plan flats can be built to BS 9991 or by using a fire engineered justification
- The justification is likely to be either a comparative or deterministic assessment (occasionally a hybrid of the two)
- BRE have carried out research into open plan layouts and show that these can be equivalent to an ADB compliant solution

Open plan flats and fire safety Dr Chris Salter

BS 9999 is being fully revised to align with current practices, new technology and other parts of the fire safety standards series, namely BS 9990 and BS 9991. The new edition of BS 9999 will introduce the following changes:

Inclusion of flowchart showing the sequential steps in the design process, to assist users in the application of the standard
