Networking in Google Cloud: Defining and Implementing ...

The rationale should clarify which of the pre-requisite module's learning outcomes are essential to the new module. Co-requisites. 38. 'Co-requisites' specify two or more modules that must be studied concurrently in order for the student to achieve the learning outcomes of one, both, or all the co-requisite modules. 39.

Learning and Teaching Handbook : 3.4.5: Guidance notes for ...

When writing module learning outcomes, the level of specificity becomes more narrow. Module Learning Outcomes are time-bound and should be achievable within a few hours or days, rather than weeks or months. In the third column of your course map, for each module, identify three to eight module learning outcomes that are specific to that module.

Learning outcomes. Understand different approaches to defining organized crime. Know the definition of an organized criminal group under the Organized Crime Convention. Distinguish the similarities and differences between organized crime and other forms of crime, such as white-collar crime and terrorism.

Organized Crime Module 1 Introduction and Learning Outcomes

In defining the program's purpose, we've answered the questions—do what? for whom? for what outcome? This overview lets us plan what inputs will be necessary for the program.. Inputs are resources dedicated to or consumed by the

program. $$$ Money is a basic input, and will be necessary for some parts of nearly all projects (fees, overhead, salaries).
