easy to use interface, without the use of section numbers. • Multiple telephone numbers for event reporting: Three for the monitoring station, five for personal dialing and one for pager reporting. Up to five persons can now be contacted by the panel in case of alarm.

MGSP : Installation Guide

Usually, there has to be a metal box for each and every alarm system panel. It allows being pinned still to the walls, so the wiring process can occur or it can rest batteries inside including a transformer. The transformer works with 220V Alternative current and gives DC current in exchange to power up the panel.
