The woman's ovaries produce eggs that ovulate (collide) with the man's sperm that come from his testes, and once the egg and sperm collide, it moves into the women's uterus and attaches onto the lining of her uterus. Men do not have a uterus, so they cannot have the ability to carry the baby.

come from, boys, who
like, to sit on their ass.
They come from girls,
who want, to grow up
too fast. They come
from, screaming,
fighting, make-up sex.
They come from little
girls, like yourself.
They come from boys,
who take, things they
don't own.

big question: Where do
babies come from?

While there are
definitely age-
appropriate answers,
some parents aren't
exactly ready to
discuss the birds and
the bees and have to
think on their feet to
come up with
something else. That
might be confusing for
the kid, but it can
provide the rest of us
with some serious
laughs.

The father and the mother make a baby, the baby grows inside the mother's womb and the baby comes out when she is ready. This helps children understand that creating and growing a baby is a process that happens over time. Keep it short and simple. It is always good to answer them based on their level of understanding.
